For Costiveness, Irregula, my and Doon vof the Digestive Organs, Indusing Headoche, assitude, Nerrousness, General Prostration of the Mind and Body, Paralysis, &c.

A moment's reflection ought to convince a sensible man A of the folly and danger of constantly dosing with Cathartin Medicines. The practice is permicious and suicidal. An experience of forty years has taught me that the constantly increasing cylis of indigestion are fearfully aggravated by the too free use of Catharties. The American people are fast becoming a nation of dyspep-tics by their artificial modes of life. Prastic Cathartic increase the irritability, and prostrate the strength of the digestive organs.

Prot O. J. Wood & Co. Gents: The letter I wrote you in 1856. Concerning your valuable. Hair Restorative, and which you have a ublished in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are, first, is it a fact of my habitation and mame, as stated in the contained; third does my hair still continue to be in good order and or natural color? To all I can and will asswer invariably yes. My hair is even better than in any stage of my life for ferty years past, more soft theirly; and better colored; the same is true of my whiskers, and the only cause why it is not generally true is that the substance is wished off by frequent ablution of the face, when if care were used by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a close connection with the whiseers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as well as this, it has no doubt been basely imitated and been used, not only without any good futto absolue injury. I have not used any of restoraive of any account for some months, and yearly hair is as good as ever, and hundreds have eximined it with surprise, as I am now 61 years old and not a gray hair in my head or on my tace; and to prove this lact. I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles last Summer for which I am very grateful: I gave it to my frieness and thereby induced them to try it, many were skepticle until after trial, and then purchased and used it with universal success. many were skepticle until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Rectorative, sold by many. I fear without authority from you. A pure article will insure success and I believe where good effects, do not follow the failure is consed by the impure article which curses the initivation of the good. I deem it my daty as heretofore to keep you apprised of continued affect on my hair, as I assure all who enquire of my anabaken opinion of its valuable results. I remain, dear sir, yours.
